

QUIZBAR 2nd Generation

- The most compact: (10"W x 2¼"D x 2¼"H).
- Very portable because of its size.
- Robust design: all lights and connectors are recessed behind the metal edges. They won't be broken if the box falls off the table.
- In a quiz, it would be positioned between the two teams, with a reset pad located by the quizmaster.
- Distinct beeps for the left and right teams.
- It will connect to other quizboxes for multi-team quizzes.
- Comes with one AC adapter.

QUIZ CUBES

- The most versatile: Each side can work independently if you want to split your team in half for practices.
- Each side handles up to 5 quizzers. The left team lights up red numbers 5-4-3-2-1. The right side lights up green 1-2-3-4-5. Yellow lights are also available for a third team.
- Best for the audience, short of buying a scoreboard.
- In a quiz, one box would be located in front of each team, with the reset pad located by the quizmaster.
- Handpad cables are 6' long and two extension cables are provided for the reset pad.
- Comes with 2 AC adapters - one for each quizbox.
- It will connect to more quizboxes for multi-team quizzes.

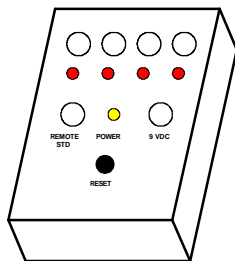

(Comes with 8 handpads)

Note the new Reaction Timer mode

QUIZBOX WITH TIMER 2nd Generation

- The quizbox with the most features. Best for the quizmaster.
- The **built-in timer** is so easy to operate, the quizmaster can run the quiz and keep the time. Timer intervals:
 - 5 seconds if no one buzzes in.
 - 30 seconds to give an answer.
 - 45 seconds for a time-out.
 - 1, 2 and 3 minutes for conferring and contesting.
- An optional **Reaction Timer** mode is available for \$20. The box shows who responded first to a randomly generated beep, and their response time in milliseconds. Great for speed drills.
- Optional Scoreboard Connector is available. If your church or district will want a scoreboard sometime, get the connector.
- Handpads plug in individually thru extension cable assemblies.
- It will connect to other quizboxes for multi-team quizzes.
- Includes one AC Adapter and 8 handpads.

POCKET QUIZZER

A small battery-operated quizbox for 4 quizzers

- Use one at home or on the road for individual or small group practice.
- Connect 2 or more together and use them at meets or practices.
- It includes a poor-man's timer: There is no clock display, but it beeps and resets after 30 seconds.
- It is available with red, yellow or green lights, or half red / half green.
- Optional AC adapters are available.
- Buy it with or without handpads. Any handpads with RCA jacks will plug in and work. Borrow ones from your other quizbox??
- It will connect to other quizboxes for multi-team quizzes.

ASSEMBLY OF GOD QUIZBOXES

8/2011

General Information

Quizbox operation: All quizboxes latch on the light of the first person to buzz in; the other lights are locked out until the system is reset. A tone or buzzer will sound when the first person buzzes in. All quizboxes except the Pocket Quizzer have lights on both the front and back, so the quizzers, as well as the quizmaster, can see who buzzed in first. The quizboxes are accurate to one or two millionths of a second.

Team size: Most quizboxes are set up for teams of 4. The left team is numbered 4-3-2-1 (red) and the right team is 1-2-3-4 (green). The Quiz Cube handles teams of 5. (5-4-3-2-1 red and 1-2-3-4-5 green)

Handpads: Standard handpads are used on the four kinds of quizboxes. All the handpads plug in individually; unused handpads do not have to be plugged in.

Quizbox power: Quizboxes are powered by AC adapters. All quizboxes will also work in a car when plugged into the lighter. (The lighter plug is optional, and is also available from stores like Radio Shack.) The Pocket Quizzer is operated by a standard 9 volt battery. An AC adapter can also be purchased separately.

Multi-team quizzing: All the quizboxes can connect together for multi-team quizzing. The first quizzer on any box will lock out all the other boxes. For example, you can connect a Pocket Quizzer to a 2nd Generation Quizbox with Timer and quiz with 12 kids.

Carrying cases: Unless otherwise specified, all quizboxes are shipped in a cardboard box. Each quizbox can also fit in a briefcase, which is better for storage and handling. Briefcases are optional, and are also available from office supply stores such as Office Max.

Scoreboards: See information on the following page. For the scoreboard to show which quizzer responded first, you must purchase the 2nd Generation Quizbox with Timer with the optional scoreboard connector.

Warranty:

- 2 years on the quizbox and 1 year on the handpads. That does not include cosmetic damage, user modifications, or abuse.
- 90 days on the cables, AC adapters and briefcases. (No workmanship is involved on my part, and I can't control how you treat them.)
- If anything goes wrong, please call first. Maybe it can be fixed over the phone or by sending a part.

What is the lead time for delivery?

- Usually able to ship within a day or two of receipt of payment.
- Urgent orders can be shipped COD, and you give the UPS man the check. COD service adds \$11.

How to order:

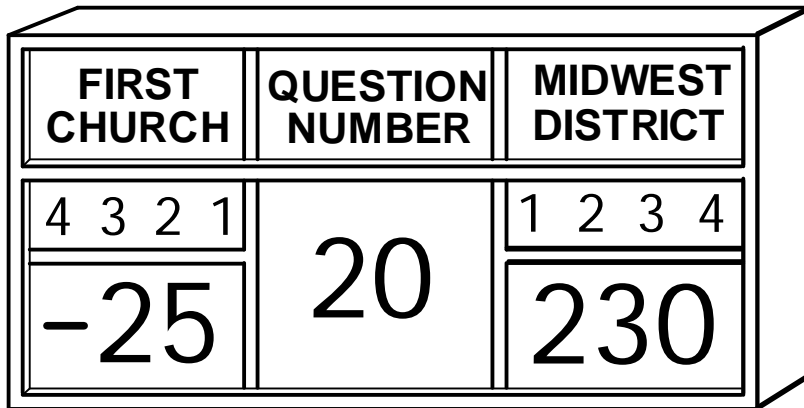

Call or e-mail to confirm delivery dates and prices. I can e-mail you a bill to turn in to the treasurer. Boxes are sent UPS. Include a street address for delivery, not a P.O. Box. Make checks payable to Quiz Equipment, Inc. and send to the address below. Payment is required before the quizbox will ship. (Or for a \$11.00 COD fee, the box can ship first and you pay UPS.) PayPal is accepted if you cover the service charges.

Quizboxes since 1981

SCOREBOARD

8/2011

- Displays who responded first, the scores, and the question number.
- Requires the Quizbox with Timer and optional scoreboard connector.
- Team names can be printed on transparencies and inserted in front of the lit areas at the top of the scoreboard.
- Dimensions: 3' W, 4" D, 1½' H. Easy to transport, yet big enough for audiences in large auditoriums

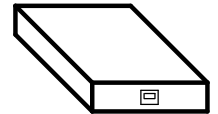

HANDBUZZERS

A standard handpad, but with a battery and beeper inside. Useful for practices at home.

USB HANDPAD

A standard handpad, but with a USB connector. For use with study and practice PC programs.
