

QUIZZING TIMER

The Quizzing Timer is designed for church and school quiz programs that use the following time intervals:

- 5 or 10 seconds for the quizzier to respond.
- 30 seconds to answer, with a "HOLD" button to stop the clock.
- 45 seconds, 1, 2 and 3 minutes for time outs, contesting, etc.

It can be used independently of any quizbox.

It can connect to some quizboxes to provide additional features:

- Connects to a Quiz-Time box and add a jump beep, a jump light, and smarter clock operation.
- Connects to various Quiz Equipment Inc. quizboxes to provide smarter clock operation and a remote reset of the quizboxes. If the quizbox has the "REMOTE STANDARD" connector for reset and interconnect, it will work.

Operation

- Simply push a button once or twice to start the clock. It will count down to zero and beep.
- The quizzier beep can be turned on/off via the switch on the back of the box.
- If connected to a quizbox, it will know to start at 5 or 30, based on if a quizzier has responded.
- If connected to a quizbox, it will stop the 5 or 10 second clock when a quizzier responds.

Price List*	4-26-04
Quizzing Timer	\$160.00
Optional cable to Quiz Equipment Inc. quizbox	\$3.00
Optional cable to Quiz-Time quizbox	\$5.00
