

## STANDARD QUIZBOX OPERATION

The quizbox works with seat pads (such as "Quiz-Time" pads), hand pads or quiz benches. When the first person jumps (or pushes their switch), the quizbox turns their light on, locks the other lights off and sounds a tone. The light will stay on until the quizmaster or judge pushes the **RESET** button.

Each seat has a corresponding switch on the quizbox to turn it off if it is not wanted.

There is a tone switch on the back of the box to turn the tone off if the beep is not desired.

**OPERATING PRINCIPLE:** When someone jumps, a switch in the seat completes a circuit to the quizbox. The box interprets this as a jump and turns the light on. The switches on the front of the quizbox can override a completed circuit and thus can turn off an unwanted seat.

## TIMER OPERATION

### If someone jumps

- Push **START** to start the timer. It will count down from 30 and beep.
- Push **HOLD** to hold the time if needed.
- Push **START** to restart the time if it is on hold.
- Push **RESET** at any time to clear the timer.

### If no one jumps

- Push **START** to start the timer. It will count down from 5 and beep. If someone jumps before the five seconds are up, the timer will stop instantly and must be reset prior to the quizzer's 30 seconds.
- Push **RESET** to clear the timer.

### Time out

- Push **45** for a 45 second time out. The timer will count down from 45 and beep. The HOLD button will have no effect.
- Push **60** for a 60 second time out. The timer will count down from 60 and beep. The HOLD button will have no effect.
- Push **RESET** at any time to clear the timer

### Rear tone switch

The rear tone switch will not shut off the beep from the timer. It will only shut off the beep from when someone jumps.

## NOTES

**Seat Pads:** - When wrapping wires around **hard pads** to put them away, have the black sides out.  
- Don't leave heavy objects (like quizboxes) on top of **soft pads** or the rubber inside may become flattened. If that happens, leave the pad alone for a few days and it will recover.

**Warranty:** 2 years on quizbox, 1 year on seatpads, except for abuse or user modification. If a problem occurs, please call first: many things can be fixed over the phone or by sending you a part. Payment for return postage and handling (presently \$6.00) will be required if you send a box for repair under warranty.
